

Autumn Newsletter

The nights may be drawing in, but we're certainly not slowing down at Burke Bros. Moving Group. We've had a season of global award wins, made considerable investments in new equipment and even rolled out a 'one stop shop' to cover every element of the process of relocating to France.

Global award win

We've successfully fought off competition from around the world to achieve a global award for a sustained commitment to environmental responsibility.

We have been awarded the Juan Peralta Ecology Award by the Pan American International Moving Association (PAIMA). Representing the European nomination, Managing Director, Gary Burke gave a presentation in support of the application at a conference with delegates from more than 40 countries from all five continents.

We have maintained a record of recycling 100% of reusable materials

without any waste going to landfill working in collaboration with ACM Environmental PLC.

Passed with flying colours

We're also very pleased to have once again successfully passed the FIDI-FAIM audit. This reflects that our inter-continental moving activities

successfully meets the high standards for managing and performing international moving services in a uniformed, quality-minded and effective way.

Moving stories

It's been another busy season moving personal and household effects to the four corners of the globe; from moving state of the art horse boxes and priceless artwork to the continent, chests from Canada and VIPs to new residences in the UK. Not to mention a torpedo which caused our vans to be stranded for a period of time in the waters off Portsmouth Harbour and the earthquake in Wellington New Zealand which

disrupted the movement of our shipping containers into the country.

Fleet upgrades

A significant investment, has seen the purchase of two new DAF 18T and 12T Euro 6 vans, supplied by Greenhous DAF, Wolverhampton. The fully

branded vehicles form part of the road trains; they are proving to be integral for use in the company's weekly services across Europe.

The two vans now bring us up to eight brand new vehicles over the last 20 months, completing our current vehicle replacement plan. The vans Euro 6 engines also ensure compliance for our London work.

Alliance of knowledge and experience providing 'one-stop-shop' for expats to France

To ensure our customer's continue to receive the ultimate in service we have rolled out a 'One-Stop Shop' in partnership with Alliance Property Group to cover all areas of the relocation process.

We will continue rolling out the partnership at the next France Show (27-29 January 2017) working with property agents Alliance French Property Group, as well as notaires and currency exchange experts.

Other key events

It was great to speak to so many interested in emigrating to Australia, New Zealand and Canada during the two day event at the Down Under Live Show at the Motorcycle Museum in Birmingham.

We also had a very successful weekend at the Forum for Expatriate Management Summit during November. The event brought together in excess of 200 key professionals from amongst the global mobility sector, industry experts and consultants.
